Equipment To Be Serviced

Equipment To Be Locked Out

Type of Energy

Equipment To Be Serviced	Plant Loader	Aggregate Bins	Belt Feeder	Blending Conveyors	Incline Conveyors	Slinger Conveyors	Dryer	Hot Elevator	Screen	Hot Bins	Overflow Bins	Mineral Fill Screw	Vane Feeder (Slurry)	Slurry Mixer	Mixer	Air Compressor	Agg. Weigh Hopper	AC Weigh Hopper	AC Fill Valves	Baghouse	Baghouse Screws	Baghouse Vane Feeder	Dust Blower	Mineral Fill Silo	Knockout Box & Ducts	Exhaust Fan	Fugitive Fan	AC Pumps	AC Heat	Burner & Blower	LP Pump & Valve	Electrical	Mechanical	Hydraulic	Pneumatic	Chemical	Thermal	Gravity	Stored (Y or N)	Comments
Aggregate Bin																																								
Belt Feeder																																								
Blending Conveyors																																								
Incline Conveyors																																								
Slinger Conveyors																																								
Dryer																																								
Hot Elevator																																								
Screen																																								
Hot Bins																																								
Overflow Bins																																								
Mineral Fill Screw																																								
Vane Feeder (Slurry)																																								
Slurry Mixer																																								
Mixer																																								
Air Compressor																																								
Agg. Weigh Hopper																																								
AC Weigh Hopper																																								
AC Fill Valve																																								
Baghouse																																								
Baghouse Screws																																								
Vane Feeder (Baghouse)																																								
Dust Blower																																								
Mineral Fill Silo																																								
Knockout Box & Ducts																																								
Exhaust Fan																																								
Fugitive Fans																																								
AC Pumps																																								
AC Heat																																								
Hot Oil Pump																																								
Hot Oil Heater																																								
Silo																																								
Slat Conveyor																																								
Under Plant Conveyor																																								
Batcher (Silo)																																								
Burner & Blower																																								
LP Pump																																								
RAP Bin																																								
RAP Belt Feeder																																								
Lump Breaker																																								
Scalping Screen																																								
#1 Conveyor																																								
Reject Conveyor																																								
#2 Conveyor																																								
#3 Conveyor
